ECVET for the Nuclear Energy Sector

2nd Seminar

2nd ECVET Seminar for the Nuclear Energy Sector

7th - 9th October 2013
Aquincum Hotel, Budapest (HU)

INTRODUCTION

Since a few years ago, the European Commission (EC) and the ECVET team works in spreading the benefits, principles and tools of the European Credit Vocation Education and Training system (ECVET).

In the Institute for Energy and Transport (IET) of the Joint Research Centre (JRC) of the EC, the education and knowledge management team develops several ECVET tools that can help the nuclear stakeholders.

Taking the above into account, it was agreed that a seminar on that matter can be an opportunity to join the efforts done by the different parties within the nuclear sector.

Therefore, this customised ECVET seminar, organized by IET- JRC EC in collaboration with the ECVET Team, is dedicated exclusively to the nuclear energy sector.

MAIN OBJECTIVE

The seminar is intended to address issues related to the implementation of the ECVET tools and principles as well as the guidance provided to learners for their contribution to the implementation of ECVET in the nuclear sector.

OVERALL OBJECTIVES

- To assist the nuclear VET providers in understanding the ECVET system
- To develop the capacities of the nuclear VET providers for creating networks
- To provide assistance to the nuclear VET providers for moving towards the implementation of the ECVET system
- To divulge the ECVET possibilities as well as to encourage VET providers for improving their collaboration strategies according the ECVET principles

OUTPUT FROM PARTICIPANTS

- Identification of all the ECVET tools, as well as identification of the ECVET working system
- Identification of the key actors and their functions in applying ECVET specifications in the nuclear field
- Creation of a nuclear VET provider's network
- Realization of the ECVET possibilities in several aspects (ex. mobility).

METHODOLOGY

- Communication between the different stakeholders
- Sharing documentation, experiences and best practices
- Creating a system in which all the stakeholders have an opportunity to express their approach
- Encouraging wide collaborations between VET providers

VENUE

7th - 9th October 2013
Aquincum Hotel, Budapest (HU)
