IACS post-2020

- ✓ **Performance-based delivery model**
- ✓ **Simplification**
- ✓ **Modernisation/ digitalisation agenda**

AMS: the legal basis and definition

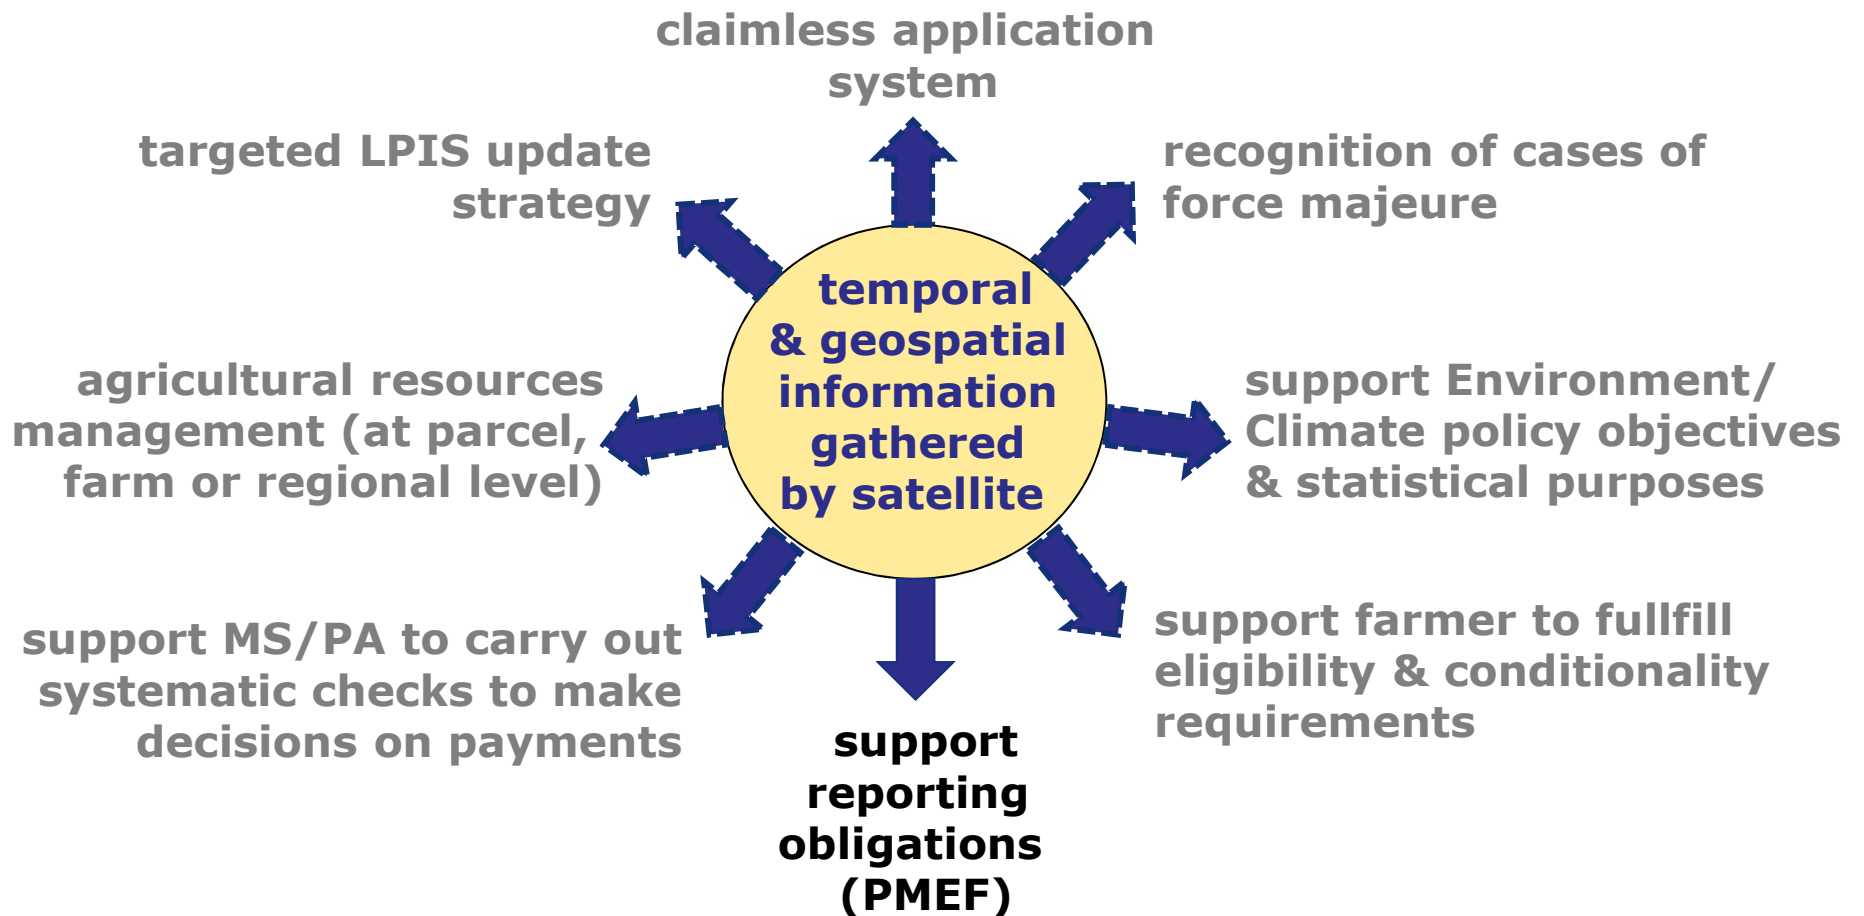

- AMS shall be a mandatory element of IACS (Art. 64 of the proposed HZR)
- MS have obligation to annually assess the quality of the AMS (Art. 68 of the proposed HZR)
- AMS is defined as (Art. 63(4)(b) of the proposed HZR):

Procedure of regular and systematic observation, tracking and assessment of agricultural activities and practices on agricultural areas by Copernicus Sentinel satellite data or other data with at least equivalent value.

Non-paper on the purpose and functions of the AMS

AMS allows MS to use monitoring information in various contexts:

European
Commission

Thank you!

IACS post-2020

Simplification

- ✓ *MS are free to:*
 - *design control and penalties system (including control rates and level of penalties)*
 - *define rules on calculation of payments*
 - *define (or not) rules on deadlines for submission of applications, amendments, penalties for late applications etc.*

Modernisation

- ✓ *full integration of new technologies and digital tools*
- ✓ *better policy monitoring and efficiency in controls*
- ✓ *area monitoring system, geo-spatial application...*

IACS/LPIS data sharing

- ✓ *for environmental-climate purposes in accordance with INSPIRE*
- ✓ *for statistical purposes*
