Tierra de acogida

Thanks a lot

Technical support and interpreters

Speakers

DG colleagues

and you!

Agenda – scope of workshop

- State of play
- Share knowledge
- Raise awareness
- Challenges and issues
- Benefits for the community
- Needs for the community

conclusion

- Need for knowledge exchange
 - But which format?
 - Some tools already exist
Pilot4cap, in situ data ...
- Maintenance of such systems is big (need to be alive)
 - Need your commitment
 - What is your willingness to commit?
- If not on collaborative platforms, then how?

conclusion

- The community sees the connections
 - Monitoring, data sharing ...
- What the commission can do to help moving forward?
 - Meetings, 'put pressure' ...?

conclusion

- We have started a dynamic that will last
 - Changes go fast and not fully foreseeable
 - Monitoring was not there 3 years ago ..
 - Changes are not only technological
 - Big changes are on their way
- Need flexibility
 - Take this into account especially with contractors
 - YOU should lead/guide/organise the 'adaptation'

conclusion

- In 2 years a lot has been achieved
 - Because this community is **STRONG**
- What can we do more?
 - E.g. access to projects?

(technical mission JRC/ AGRI available → invite us!)

conclusion – open questions

- What are your challenges now?
- Data exchange/multi purpose IacS
 - Organise data
 - Safety/security/authentication
- FAS is back
 - How to organise and integrate in IacS?
- Community focused so far on land
 - What about animal part now?
 - Need for more I ntegrated
 - Focus on holding/digital dossier

Presentations on line

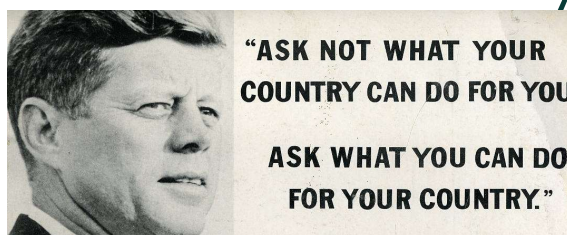

Contact you for data reporting (Image use)

Safe trip back

MARS Conference → 26-28 November Prague (CZ)

Take home message

Ask not only what COM can do for you, ask what you can do for COM 😊

JFK

Take care !!!! WD
