EUROPEAN COMMISSION – JOINT RESEARCH CENTRE (JRC)

ISO 9001:2015

The Joint Research Centre provides independent, evidence-based knowledge and science, supporting EU policies to positively impact society.

Directorate A: Strategy and impact

Overall strategy and impact of the JRC through: human resources and budget planning, strategy and coordination of the JRC multi-annual programme, stakeholders and international relations, support on legal affairs and central Intellectual Property service, quality improvement and impact assessment.

Directorate B: Fair and Sustainable Economy

Research activities providing analysis, data and scientific evidence, using unique analytical and modelling tools, to support the EU's political initiatives in the following areas: economic and financial resilience, fiscal policy, territorial development, New European Bauhaus, circular economy and sustainable industry, industrial strategy, skills and technology transfer, and innovation policies and economic impact.

Directorate C: Energy, Mobility and Climate

Execution and management of institutional and competitive research activities to support the European policy-making in the area of Energy, Mobility and Climate. In particular, to support to EU policies and technology innovation related to:

- Energy – to ensure sustainable, safe, secure and efficient energy production, distribution and use,
- Mobility – to foster sustainable and efficient mobility in Europe,
- Climate – to provide scientific and technical analyses in support to integrated air quality, climate and related policies.

Directorate D: Sustainable Resources

Provision of scientific and technical support to the EU policies and initiatives to promote the sustainable use of natural resources at EU and global level:

- Environmental policies (water and marine, soil, forest)
- Bio-economy
- Common Agricultural Policy and transition to sustainable food systems
- Climate change mitigation and adaptation
- Biodiversity and ecosystem services
- Earth observation
- Supply Chain Assessments
- Implementation of the UN Sustainable Development Goals

Directorate E: Space, Security and Migration

Research and knowledge management activities to support the European policy-making process in the areas of:

- Emergency preparedness, crisis response, disaster risk management;
- Counter-terrorism and resilience of critical infrastructures against hybrid threats;
- European space-based infrastructures for satellite navigation and communications;
- Safety, security and sustainability of buildings;
- Transport and border security;
- Demographic change and migration;
- Strategic autonomy for security and space.

EUROPEAN COMMISSION – JOINT RESEARCH CENTRE (JRC)

ISO 9001:2015

Directorate F: Health and Food

- Provision of scientific and technical support to EU policies on public health, food, consumer products and chemicals.
- Active contribution to the work of standardisation bodies.
- Hosting European Union Reference Laboratories (EURLs).

Directorate G: Nuclear Safety and Security

Research and policy support activities in the areas of:

- Experimental and modelling studies covering nuclear reactor and fuel cycle safety, including current and innovative nuclear energy systems as well as emergency preparedness and radioactivity environmental monitoring;
- Application of measures for safeguards, non-proliferation and nuclear security;
- Experimental and modelling studies for nuclear waste management and disposal;
- Nuclear science and non-energy applications.

Management and dissemination of knowledge including training and education.

Directorate J. Nuclear Decommissioning and Waste Management

- Safe conservation of JRC nuclear installations during the period between their shutdown and the complete decommissioning;
- Decommissioning and waste management liabilities resulting from historical nuclear activities carried out at the JRC-Ispra site;
- Future decommissioning and waste management liabilities arising from the activities carried out in all other JRC nuclear sites.

Directorate R: Support Services

The efficient and effective deployment of the necessary resources to support the JRC's activities, in compliance with all applicable rules and regulations. To make the JRC sites safe, secure and attractive working environments by providing efficient customer-driven services to facilitate the current and future scientific activities of the JRC while ensuring that JRC sites act as a good neighbour to their respective community at large.

Directorate S. Innovation in Science and Policymaking

To help EU policies to innovate, stay relevant and be responsive to citizens' needs by connecting, synthesising and integrating in the processes that underpin evidence-informed policymaking forward-looking knowledge, science and methods from within the JRC and beyond combined with new ways the Commission engages with citizens through:

- Developing systemic views, being the sense-maker of knowledge and the connector of hubs of scientific excellence at the science/policy interface.
- Enabling the application of democratic principles such as openness, transparency, citizens' engagement and the use of science in policy-making.

Directorate T: Digital Transformation and Data

- To integrate JRC's scientific and technical expertise in digital technologies and their socio-economic impact, cybersecurity, data and ICT management.
- To deliver impactful and integrated science-for-policy recommendations supporting EU digital and data policies. To provide top-class scientific and corporate ICT infrastructure and services for the JRC.
- To host the JRC work on algorithmic transparency, data analysis and robust statistics as well as the JRC LISO function.
- To lead on the implementation of the JRC data strategy which aims to provide the data analysis expertise and ICT infrastructure necessary to maintain the JRC's leading role in providing science advice to policymakers.
