# SAT4TER

Self-Assessment Tool for Territorial Development strategies

European Commission, Joint Research Centre – Territorial Development Unit

23 April 2024

## SAT4TER

Self-Assessment Tool for Territorial Development strategies

## Anamaria Vrabie

European Commission, Joint Research Centre – Territorial Development Unit

23 April 2024

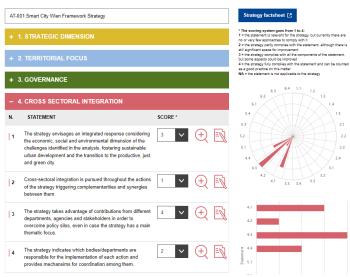

# Session 1: Introduction and scope of the event

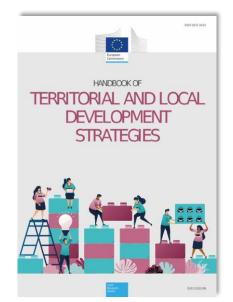

## Welcome

#### The tool

- Today marks the official launch of The Self-Assessment Tool for Territorial and Local Development strategies (SAT4TER).
- The tool complements the knowledge provided by the Handbook of Territorial and Local Development Strategies on policy learning and methodological support to design and implement territorial development strategies in non-urban areas.
- Both resources have been developed by European Commission's Joint Research Centre (JRC) and Directorate-General for Regional and Urban Policy (DG REGIO).

## Agenda of the online event - 11.00 - 12.30

Session 1: Introduction and scope of the event

Anamaria Vrabie - Territorial Development Unit, JRC

• Session 2: Welcome Remarks and the Cohesion policy and the territorial strategies in non-urban areas in 2021-2027 context

Laura Hagemann – Inclusive Growth, Urban and Territorial Development Unit, DG REGIO

• Session 3: Live demo of the Self-Assessment Tool for Territorial and Local Development strategies (SAT4TER) and link with The Handbook of Territorial and Local development Strategies

Giulia Testori – Territorial Development Unit, JRC

- Session 4: How SAT4TER can support your local authority. Voices of experience and Q&A
  - Tiago Teotónio Pereira- ITI Algarve-Alentejo, Board of MA Alentejo 2030, Portugal.
  - Markéta Dvořáková, LAG Brdy-Vltava, Dobříš CLLD, Czech Republic.

Session 5: Future synergies with the next Territorial peer review centred on demographic change topics

Anamaria Vrabie - Territorial Development Unit, JRC

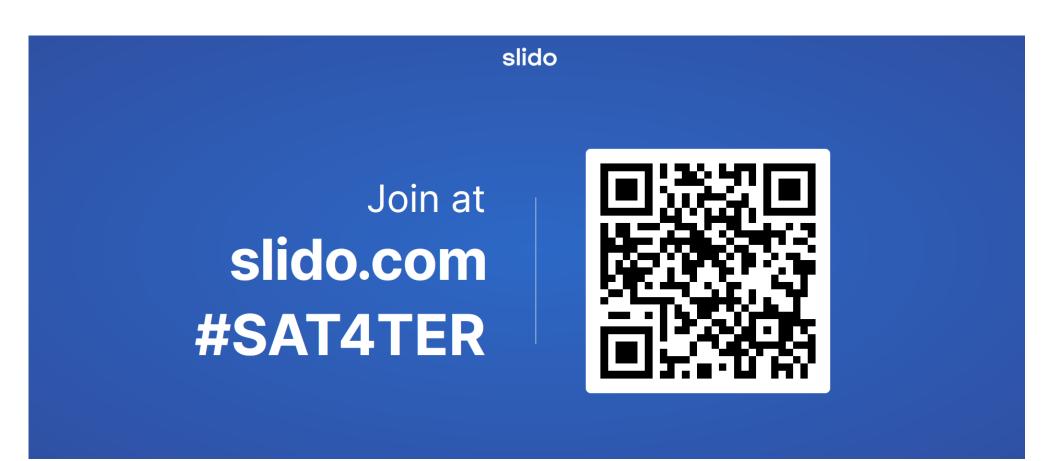

**Session 6: Closing remarks** 

Alessandro Rainoldi – Head of Unit for Territorial Development, JRC

## Let's connect

Session 4: How SAT4TER can support your local authority: understanding the territorial peer reviews workshops

#### Context: understanding the link between SAT4TER and the territorial peer reviews

#### Territorial peer reviews in non-urban areas

 Two-day workshops planned for local authorities in charge of designing and/or implementing a development strategy in non-urban areas under the EU Cohesion Policy 2021-2027.

#### Main stakeholders:

- Strategies under review
- Peers
- Experts

#### **Territorial focus:**

- Non-urban strategies → JRC and DG REGIO
- Urban strategies → European Urban Initiative (EUI)

#### Main elements:

- Each strategy under review identifies 3 core challenges, that are analysed and for which
  they receive tailor-made advice from peers and experts during the territorial Peer Review
  workshop.
- Each strategy under review uses <u>SAT4TER</u> for the initial assessment of their strategy and for better identifying the top challenges it wants to tackle during the peer review workshop.

Session 5: Future synergies with the next territorial peer review centred on demographic change topics

## Upcoming Territorial peer review on demographic change

#### When

• mid-June 2024 - specific date will be decided according to the availability of the cohosting territory.

#### Where

• will be decided at a later stage (mid-May) according to the selected co-hosting territory.

### 2024 Topic

• This peer review will touch upon a variety of topics, including governance, funding, stakeholder involvement, etc., but with a predominant thematic focus on demographic change. As the vast majority of European territories in non-urban areas are losing population, we will address questions such as: how are current strategies reflecting the demographic transition and the challenges related to depopulation in particular? What are the key drivers for successful adaptation to demographic transition? Despite the specific topic, all non-urban 2021-2027 strategies are eligible to apply. The deadline for application is 2 May 2024 at 13.00 CET.

## What are the benefits of being part of a peer review?

- ✓ Receive tailor-made support to improve your integrated territorial development strategy, learning from peers designing and implementing similar kinds of strategies in other European contexts, experts and EU Commission staff;
- ✓ **Identify possible solutions for key challenges** related to the design, implementation and monitoring of your strategy;
- ✓ **Get insights into how to use the resources** developed by the Joint Research Centre, such as the <u>Handbook of Territorial and Local Development Strategies</u> and the <u>Self-Assessment Tool for Territorial and Local Development Strategies</u> (SAT4TER);
- As a host territory, increase your European positioning on the topic of integrated territorial development, as well as work closely with key policy experts from JRC and DG REGIO;
- Network with like-minded colleagues.

## Categories under which you can take part:

- A) **Strategy under review**. The workshop is open to **3 strategies** under review. Three invited officials (*fluent in English*) will represent each strategy. Ahead the workshop, each strategy representative will work with the JRC team of experts and will prepare **a background document and a Power-point presentation**. In this preparatory phase they will identify together three main challenges they would like to discuss with their peers during the workshop.
  - B) Co-hosting strategy. It is one of the 3 selected strategies under review, whose representatives are willing to co-organise and host the two-day event in collaboration with the European Commission.
  - C) Strategies attending as peers. The event is open to attend to the representatives of maximum 10 strategies. The workshop is open to two representative per strategy. They will join the workshop and will be asked to provide structured feedback during the sessions (e.g. policy recommendations and examples) to address the challenges of the strategies under review. They learn from and exchange with the other participants.

## **THANK YOU!**
