- •WHY: To experiment innovative social and community-based actions to guarantee children and families' in poverty social inclusion and participation

Steering Committee, a new paradigm of public governance: UniPD, Ministry of Welfare, Regions, Local Authorities

Innovation

Practice

QUESTION: HOW TO FILL THE GAP BETWEEN RESEARCH-INNOVATION PROPOSALS AND PRACTICE FOR THE EMANCIPATION OF PRACTICE?

Practice

Implementation science

"examines how to move and adopt these effective interventions into practice" (Cabassa, 2016, p. 2).

IMPLEMENTATION STRATEGIES:

"Systematic processes and practices intended to facilitate the adoption of a specific practice innovation into usual care in order to address gaps in services or in quality of care" (Powell et al., 2012, Powell, Proctor, & Glass, 2014, Cabassa, 2016, 5).

Innovation

Aims at responding to problems connected to family vulnerability and poverty at the root of child neglect

«is a significant deficiency or a failure to respond to the needs of a child recognized as fundamental on the basis of current scientific knowledge»

(Lacharité, Éthier et Nolin, 2006)

Programma di Intervento Per la Prevenzione dell'Istituzionalizza:

CONSOLIDATION

P.I.P.P.I. STARTS

EXPERIMENTAL LEVEL IN 10 CITIES

BECOMES STABLE PROGRAM FUNDED BY THE NATIONAL FUND OF SOCIAL POLICIES

NATIONAL GUIDELINES FOR THE PROMOTION OF THE POSITIVE PARENTING AND INTERVENTION WITH VULNERABLE FAMILIES

The Implementation Journey of P.I.P.P.I. between researce, practice and policy

The methodological approach of P.I.P.P.I.

P.I.P.P.I. invests in Social Innovation and Local Capacity building

P.I.P.P.I. invests in Early Childhood Development P.I.P.P.I.= ESSENTIAL LEVEL of public welfare

UNIVERSALISATION

P.I.P.P.I.= ALL THE ITALIAN L.A.(465) ARE INVOLVED UNDER THE EU NEXT GENERATION FUND

ACTIVATION

Other tools for PTE

Who are the coaches?

- 1) In each municipality, two coaches perform a coaching function for the multidisciplinary teams. The coaches can be a manager, an head of an operational unit or a professional. They accompany the teams in the implementation of the programme (choice of families, preliminary assessment, tutoring, use of tools, verification of the compilations and progress of the plan of each family and of the devices used, etc.). The research team provides coaching to this second-level coaches in dedicated meetings taking place every 3 to 4 months: **every MT has a coach**
- 2) The multidisciplinary teams (MT) working with families are composed mainly of professionals (social workers, psychologist, teachers, educators, paediatricians, ecc.) working in public social services, who join the programme voluntarily. They receive week-long training in person and 2 days of asynchronous digital learning activities. In each MT one practionner plays the role of care-taker / coach towards a family: every family has a coach

1) Initial training sessions: researchers coach the coaches (researchers + coaches + practitioners)

2) Recurring tutoring sessions (researchers + coaches)

3)Recurring local multidisciplinary tutoring sessions (Coaches coach the practitioners)

Programma di Intervento Per la Prevenzione dell'Istituzionalizzazione

What good is an idea if it remains an idea?

Try.

Experiment.

Iterate.

Fail.

Try again.
Change the word.

Sinek, 2016
