

# 1<sup>st</sup> EU Soil Observatory Stakeholder Forum

## Workshop on Soil Pollution in EUSO

Wednesday 20<sup>th</sup> October 2021, 10:00 – 12:30 (virtual)

*Moderator: Piotr Wojda, European Commission Joint Research Centre*

### Objectives and Timeline

#### Session 1a: Soil Pollution

**Objective:** *Support to Clean Soil Monitoring & Outlook Report*

#### Establishment of the Soil Pollution Technical Working Group through Session 1a

##### Description

The first workshop on “Soil Pollution” brings together different soil-related stakeholders, from policy makers, through researchers, technology experts and national or supra-national networks. Its generic goals are to incentivise stakeholder engagement, to support enhanced soil literacy and to collect feedback. The final goal of this workshop is to establish a **Soil Pollution Technical Working Group**. This Technical Working Group will provide support to Clean Soil Monitoring and Outlook Report.

##### Objectives

The following objectives for Session 1a on Soil Pollution have been defined:

- To set the scene present ZPAP and soil-related issues from different angles: from policy through Member States’ administration to all stakeholders.
- To call for contributions to the Clean Soil Monitoring and Outlook Report.
- To create a Technical Working Group on Soil pollution within the EUSO.
- To identify the chairs, co-chairs and the TWG Members.

- To get involved, to commit and to perform the following tasks.

### **Tasks of the Technical Working Group in providing support to the Clean Soil Outlook**

- To propose and establish the Table of Contents
- To discuss the Contaminated Sites related issues
- To reflect on and to create the Watchlist
- To produce and to put together contributions from stakeholders
- To contribute to the First Draft of the Clean Soil Outlook
- To revise the final draft of the Clean Soil Outlook
