JRC Nanomaterials Repository

Looking for nanomaterials for your research?

The **JRC Nanomaterials Repository**
could be the solution.

Joint
Research
Centre

To **support the harmonisation** of testing methods and to **foster better comparability** of nanomaterials-related studies we supply:

representative samples of industrial nanomaterials

Features of our sampling methods:

- Automated sampling procedures
- Traceable samples (*unique vial ID*)
- Customised material quantity per vial (*on request*)
