Diversity and Inclusion in 4th and 5th Industrial Revolution

Professionals & Students
-Tech & Health-

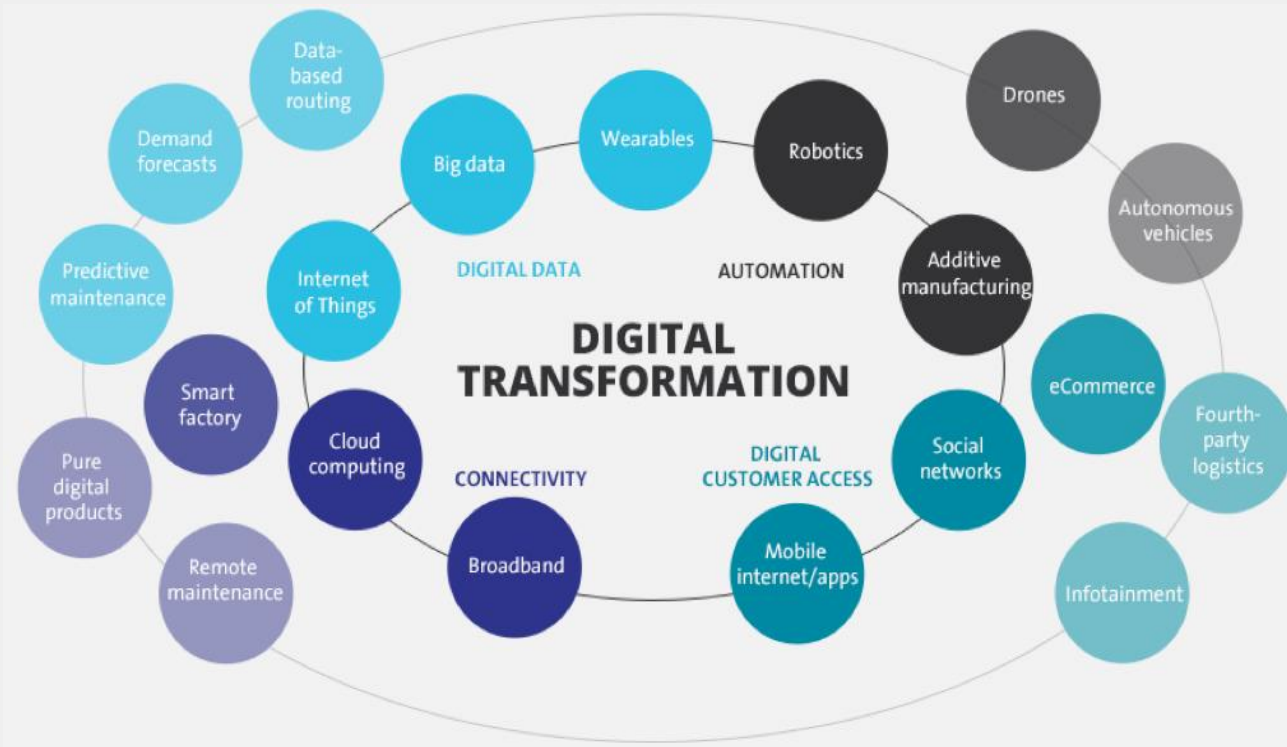

Government

Industry

How are these and many other technologies to be used in Healthcare?

Health Tech Lab brings Innovation at the intersection of communities of professionals and students from a wide range of technologies and health.

COMMUNITY/ Ecosystem

600+ people as a part of our monthly Meetup events.

Since June 2018 we joined European Connected Health Alliance by becoming Serbian Connected Health Ecosystem.

MEETUPS

Monthly gatherings, introducing new startups, companies, ideas, girl in tech empowerment

Startup support-CONFERENCES/SEMINAR/ACCELERATOR

FABelgrade and Smart City Festival are two conferences where we took a part in organizing Health Tech sessions. Belgrade Venture Forum, Imagine IF accelerator, Western Balkans Digital Summit.

HACKATHON

First MIT Health Hackaton organized in January 2017 was the beginning of great journey of Ivana & Damjan

Blockchain

Apps

Biotech

AR VR Machine learning

Facebook and Meetup groups 600+

Tasks and Results

Srem-cath

Health Acceleration Program
in Serbia

Good Laboratory Practice GLP in
Serbia

Alternative investments &
Materials for functional
prototyping

Tasks and Results

The Pill app - Pilula

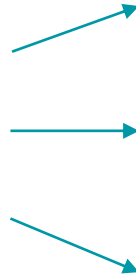

Open Data from ALIMS
(Medicines and Medical
Devices Agency of
Serbia)

Already used by 2000
patients

On Google play

Tasks and Results

Research Lab

Collaboration with other research institutions

Establishing connection with other health markets

Reproducibility of HTL model

1. Funding
2. Going Regional - Western Balkans
3. Going Worldwide – developing countries and newly established health tech ecosystems

1. Current circumstances do not define potential
2. Multidisciplinary approach – people, knowledge, experiences
3. Innovation happens everywhere

always leading the way
